Page 1: Views on Public Charter Schools

Q1

What is your name?

Christian Castelli

Q2

What office are you seeking?

U.S. House of Representatives, NC-06

Q3

Yes

Do you view public charter schools as a valuable, necessary school choice for families to have as an educational option?

Q4

Yes

Should public charter students be treated the same as traditional public school students in terms of funding?

Q5

Multiple options

In general, do you believe parents should be allowed to choose among multiple schooling options for their children- or just one option?

Q6

Yes

Are North Carolina public charter schools currently held to satisfactory levels of financial and academic accountability?

Q7**Yes**

Should public charter schools receive the same level of local and state funding for their operations as traditional public schools?

Q8**Yes, charter schools should receive separate facility funding, just like traditional public schools.**

Unlike traditional public schools, public charter schools must pay for their facilities out of their school operating budget. Do you believe public charter schools should receive separate funding to pay for their buildings--the same way traditional public schools do--if the local government would like to assist the public charter school with facility funding?

Q9**Yes**

Would you oppose reinstating a cap on the number of public charter schools allowed in North Carolina?

Q10**Yes**

Do you oppose further restrictions on the number of students allowed to enroll in public charter schools?

Q11**No**

Do you believe that public charter schools siphon funds from traditional public schools?

Q12**Respondent skipped this question**

Please use this space to expand (25-30 words) upon any of your answers above.

Q13

Please tell us your overall view of public charter schools in North Carolina, in 50 words or less.

I am a firm believer in charter schools and giving parents education choice. Parents know what is best for their children's education and should have a say.
